

VISUALIZING SECURITY DATA IN MS SENTINEL

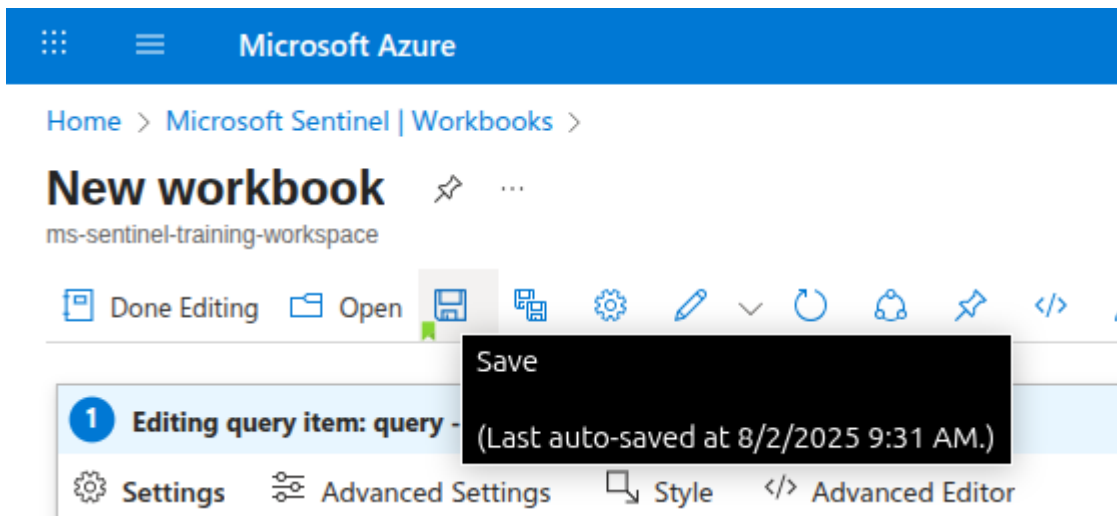

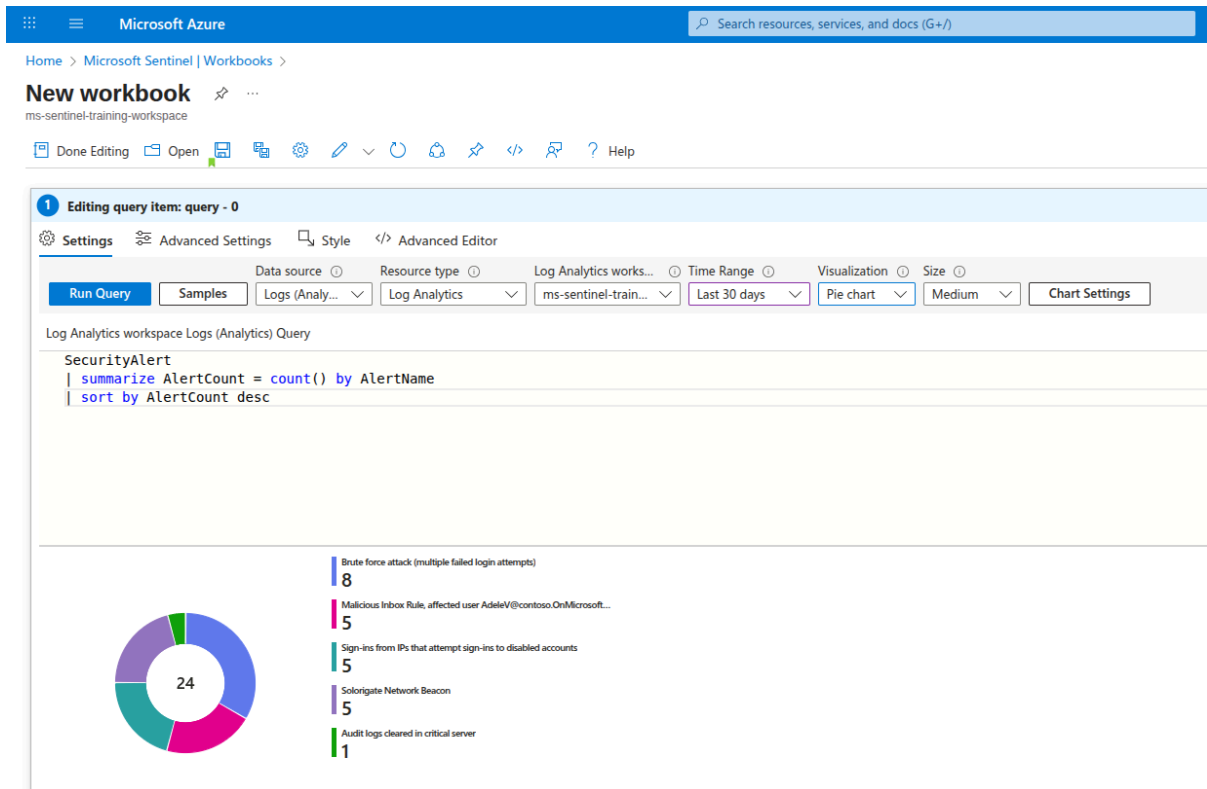

Hands-on:

1. Creating Your First Workbook in MS Sentinel. (Most frequently triggered security alerts in the past 30 days.) ~ **Page No. 2**
2. Create a Workbook For Security Alerts (Last 24 Hours). ~ **Page No. 6**
3. Visualizing Brute-Force Attack Attempts in Azure Workbooks. ~ **Page No. 10**

Creating Your First Workbook in MS Sentinel. (Most frequently triggered security alerts in the past 30 days.)

The screenshot shows the Microsoft Sentinel Workbooks interface. At the top, the Microsoft Azure header is visible. Below it, the breadcrumb navigation shows 'Home > Microsoft Sentinel'. The main heading is 'Microsoft Sentinel | Workbooks' with a subtext 'Selected workspace: 'ms-sentinel-training-workspace''. A search bar and a 'Refresh' button are present. A sidebar on the left lists navigation options: General, Threat management, Incidents, Workbooks (selected), Hunting, Notebooks, Entity behavior, and Threat intelligence. The main content area shows a summary of 'My workbooks' (0), 'Templates' (3), and 'Updates' (0). Below this, there are tabs for 'My workbooks' and 'Templates'. The 'My workbooks' tab is active, displaying a large blue icon and the heading 'Microsoft Sentinel Workbooks'. Underneath, it says 'What is it?' and provides a brief description: 'Workbooks enable you to get instant visualization and analysis of your data. Workbooks provide you with the full power of the Microsoft Sentinel engine.'

The screenshot shows the 'New workbook' page in the Microsoft Sentinel workspace. The breadcrumb navigation is 'Home > Microsoft Sentinel | Workbooks >'. The main heading is 'New workbook' with a subtext 'ms-sentinel-training-workspace'. A toolbar at the top includes buttons for 'Done Editing', 'Open', 'Save', 'Copy', 'Settings', 'Edit', 'Undo', 'Redo', 'Share', 'Code', 'Help', and a question mark. Below the toolbar, there is a message: 'This Microsoft Sentinel Report has no content. Use the add button below to add items.' A dropdown menu is open, showing options to 'Add' various content types: text, image, video, parameters, links/tabs, query, metric, and group. The 'Add query' option is highlighted with a black background and white text.

Create a Workbook For Security Alerts (Last 24 Hours).

The screenshot shows the Microsoft Defender | Default Directory interface. The left sidebar contains a navigation menu with the following items: Home, Exposure management, Investigation & response, Threat intelligence, Microsoft Sentinel, Search, Threat management, and a list of workbooks including Workbooks, Hunting, Notebooks, Threat intelligence, and MITRE ATT&CK. The main content area is titled 'Workbooks' and displays two statistics: 1 My workbooks and 3 Templates. Below these statistics, there are tabs for 'My workbooks' and 'Templates', with 'My workbooks' being the active tab. A '+ Add Workbook' button is visible. A search bar is also present. Below the search bar, there is a table with columns 'Favorite' and 'Name'. The table contains one entry with a star icon in the 'Favorite' column and the text 'Most frequently triggered sec' in the 'Name' column.
